Amelia—

Thanks for your note. We are in the early days of implementing the President's Executive Order. Some interim guidance has been provided and we are working through that guidance with the Office of Management and Budget. We have been able to move some regulatory actions forward (including some Federal Register notices), particularly those with statutory deadlines. In the meantime, we are continuing to work on all of our registration and registration review actions, teeing up those actions (as necessary) for decision-making by agency leadership.

Are there specific actions of interest for Monsanto? Perhaps this is a topic that we could have on the agenda for our upcoming meeting?

--Rick

**Subject:** Regulatory 'Freeze'

Hello Rick,

I was on a call with some St Louis colleagues this morning and could not answer one of their questions. I was asked about the "regulatory freeze" as it is called. The White House directive to stop all legislative actions until....not sure, further notice? 60 days?

I am sure you know what I am talking about even if I am describing it poorly. Is the restriction lifted? I have personally seen a good deal of regulatory actions, but perhaps not anything in FR notices.

If you can clarify this for me I would be grateful.

Many thanks, have a good evening,

Amelia
